Liscate, 29th November 2022

***After 30 years Resitape® moves into a new home!***

In the next few weeks Resitape will move from the historical site in Liscate to a new plant in Gessate (Milan area), only 12 km away. A building with a surface area around three times larger than the current one and with a large internal warehouse.

The move will start with the offices, sequentially followed by Production, Quality Control and the R&D Laboratory departments. A detailed relocation program will be followed and completed within the next three weeks.

This relocation is necessary to support Resitape's strong growth, which requires additional production and logistics spaces.

Thanks to the careful definition of the relocation schedule, there will be no impact neither on the production activities, nor on the shipping schedules already agreed with our Partners.

Finally, we would like to inform you that Resitape's production activities will be closed for the Christmas holidays from 24 December to 8 January included.

We would like to take this opportunity to extend our best regards from the entire Resitape® Team!
