Liscate (Milano), October 12, 2020 - Resitape is pleased to announce the hiring of Gabriele Tironi as QHS&E Manager.

Gabriele holds a Chemistry degree from University of Milan and MSc executive in Energy Management at MiP – Politecnico di Milano.

Previously, Gabriele worked almost 10 years for an important industrial company, where he gained a significant experience as QHS&E. In particular, he was involved in the development and management of specific environmental and health & safety standards, internal health & safety topics training, in the preventative maintenance management and in the employees' activities risks assesment.

Gabriele's areas of practice with Resitape are Health, Safety and Environment. Gabriele is also in charge of the products and material certifications management and of the relationship with Resitape's certification bodies.
