Liscate, August 4<sup>th</sup>, 2020

**Subject: Resitape participation to KoreaChem 2020**

Resitape is proud to announce its participation to KoreaChem 2020 international exhibition in Goyang (South Korea) from July 27<sup>th</sup> to 30<sup>th</sup> 2020.

KoreaChem (Korea Int'l Exhibition for Chemical Processing, Fine & Speciality Chemicals) is organized by IU News Co. Ltd., Kyungyon Exhibition Corp. and KY exposition Corp., and represents a national and international showcase of the Chemical Industry, with over 125 exhibitors, 257 booths and exceeding 38.000 visitors (last edition) both national and international.

Matteo Panizza, Resitape's CEO, said: *"The presence of Resitape at KoreaChem confirms the company willingness to be more and more active worldwide and to consolidate its position as a Tier 1 global player in the PTFE paste extruded products industry. We also thank our local partners GCC and Xiflon for their support in arranging our booth at the exhibition, and for working with us to further strengthen our presence in Asia"*.

Resitape, founded in 1962 and based in Liscate (Milan – Italy) is a leading manufacturer of high quality PTFE paste-extruded products ranging from electrical grade tapes, to thread sealing tapes and monofilaments, textile yarns, dental floss and medical grade tapes and monofilaments.

GCC, based in South Korea, is an important supplier of fluorine-related products, resins and additives, cosmetic raw materials and additives.

Xiflon is based in China and is specialized in fluoropolymer resins and products made of PTFE, PFA, MFA, FEP, ETFE, PVDF, PEEK and PCTFE. The company focuses on the quality of its products to better serve its customers
