Subject: Twineflon® at MCE MOSTRA CONVEGNO EXPOCOMFORT 2022 together with GIA

Resitape is proud to announce the presence of a dedicated Resitape Twineflon® corner within the GIA stand (Hall 18 – Stand A19) at MCE Mostra Convegno Expocomfort 2022 – Milano (from June 28th to July 1st)

MCE is the unique marketplace and the global event where companies in the HVAC+R, renewable sources and energy efficient sectors gather and showcase the latest technologies, solutions and systems for smart buildings in commercial, industrial and domestic residential sectors.

At MCE 2022, GIA will present the launch of the FSR 175mt for – Filo Sigilla Raccordi (100% Twineflon), monofilament sealant particularly suitable for highly professional uses.

Twineflon® is a patented dynamic professional monofilament sealant that adjust itself in place during the installation. Twineflon® is a dynamic, soft, flexible sealant, compressible and pliable, for highly professional uses. Twineflon® does not just fill the space but adapts dynamically to it. The high chemical resistance of Twineflon® makes it suitable almost to all the types of applications, also in presence of aggressive or corrosive fluids.

Matteo Panizza, Resitape's CEO, said: *"we are proud Resitape's Twineflon® is present here at MCE 2022 together and thanks to our Italian Partner GIA. GIA's FSR 175mt (100%Twineflon®) is a perfect successful example of a Twineflon® private label version"*.

Fabrizio Pasquini, GIA's CEO, said: *"we are glad we started this new partnership with Resitape. It's been a pleasure sharing an event as important as MCE with such a great company. During the exhibition FSR 175mt met with great success from visitors, and we expect major results in the months to come"*.

Resitape, founded in 1962 and based in Liscate (Milan – Italy) is a leading manufacturer of high-quality PTFE paste-extruded products. In particular, Resitape PTFE Thread Sealing Tapes and Monofilaments include standard and professional PTFE tapes, Twineflon® (175mt) and Cordflon® (75mt) 100% PTFE monofilaments.
